

## **Adverse Weather Information**

**Garbage Canceled Due to Snow?  
Sometimes snow happens...**

**Sometimes snow happens and the roads are unsafe for our garbage trucks. The City of Anacortes is concerned about your safety as well as the safety of our employees. During periods of heavy snow, garbage and recycling service may be sporadic. Please do not risk bringing your garbage and recycling containers down steep, slippery drives or sidewalks. You may hold it over until the following week when our crew can pick up two weeks of garbage after bad weather has passed. Just place your extra garbage out in bags that are tied shut the following week on your normal service day.**

**You may check for snow delays by checking our city website at [www.anacorteworks.org](http://www.anacorteworks.org). Once online, you can also follow us on Facebook, Instagram and Twitter.**
