PRESS RELEASE

Commercial Ave Complete Street Project Phase 1 Website

December 8, 2020

FOR IMMEDIATE RELEASE

ANACORTES, WA –The Virtual Public Open House website for the Commercial Ave Complete Street Project - Phase 1 is now live at <https://anacortescompletestreet.com/>

This project includes the 12th Street and Commercial Avenue intersection and a block each way. The website covers information on the project, lists alternatives being considered, and provides the opportunity for community members and stakeholders to register their comments on the project. This virtual Open House is a follow up on the previous in person open house that was held in December 2019.

While the website will remain available for the life of the project, the Virtual Public Open House will be active from now until the end of January 2021. Following the virtual Open House, the project team will be presenting the project to the City Council in early February 2021 with a recommended alternative to begin design of the project.

Please take this opportunity to review the information on the website, consider the project, and register your comments with the design team. The level of engagement from residents of the City of Anacortes is impressive and the City would like to encourage the continued interest in the project development.

A presentation of this website at a City Council meeting is planned in the next few weeks.

The staff contact for any questions on this project is Tim Hohmann, Engineering Technician he can be reached at (360) 588-8068.
