

Join Wallie Funk on the Alaska-bound purse seiner *Deception* in 1958 as he documents an Anacortes rite of passage - a season on a salmon fishing boat. Wallie's trip begins on a dare and continues as he catches some of the great photographs in *Pictures of the Past*.

“What is most memorable to us, as we recollect the trip, is the camaraderie that existed not only among crews of each vessel, but among those who were traveling the route together on other vessels. It was as if they all were their brothers’ keepers as the challenges enroute to the fishing grounds required reliance on one another as well as respect for individuality.”

- Wallie Funk, *Pictures of the Past*
